The Stolen Year May 06 2021 An NPR education reporter shows how the pandemic disrupted children's lives—and how our country has nearly always failed to put our children first The onset of COVID broke a 150-year social contract between America and its children. Tens of millions of students lost what little support they had from the government—not just school but food, heat, and physical and emotional safety. The cost was enormous. But this crisis began much earlier than 2020. In *The Stolen Year*, Anya Kamenetz exposes a long-running indifference to the plight of children and families in American life and calls for a reckoning. She follows families across the country as they live through the pandemic, facing loss and resilience: a boy with autism in San Francisco who gains a foster brother and a Hispanic family in Texas that loses a member to COVID, and finds solace when they need it most. Kamenetz also recounts the history that brought us to this point: how we thrust children and caregivers into poverty, how we over-police families of color, how we rely on mothers instead of infrastructure. And how our government, in failing to support our children through this tumultuous time, has stolen years of their lives.

The Year of Magical Thinking Aug 17 2019 NEW YORK TIMES BESTSELLER □ NATIONAL BOOK AWARD WINNER □ From one of America's iconic writers, a stunning book of electric honesty and passion that explores an intensely personal yet universal experience: a portrait of a

marriage—and a life, in good times and bad—that will speak to anyone who has ever loved a husband or wife or child. Several days before Christmas 2003, John Gregory Dunne and Joan Didion saw their only daughter, Quintana, fall ill with what seemed at first flu, then pneumonia, then complete septic shock. She was put into an induced coma and placed on life support. Days later—the night before New Year's Eve—the Dunnes were just sitting down to dinner after visiting the hospital when John Gregory Dunne suffered a massive and fatal coronary. In a second, this close, symbiotic partnership of forty years was over. Four weeks later, their daughter pulled through. Two months after that, arriving at LAX, she collapsed and underwent six hours of brain surgery at UCLA Medical Center to relieve a massive hematoma. This powerful book is Didion's attempt to make sense of the "weeks and then months that cut loose any fixed idea I ever had about death, about illness ... about marriage and children and memory ... about the shallowness of sanity, about life itself.

[The Younger Next Year Back Book](#) Mar 04 2021

At some point in their lives, 80% of Americans will

seek expert help for back pain. It's an epidemic, with a cost to society in medical expenses and lost productivity that is steeper than heart disease. But remember the 80% figure—that's the astonishing cure rate at Dr. Jeremy James's Aspen Club Back Institute. A Doctor of Chiropractic who took that path because of his own severe injury-induced back pain, he has developed a revolutionary behavioral/whole-body approach to help sufferers heal—and often eliminate—back pain forever. Co-written with Chris Crowley, *The Younger Next Year Back Book* follows the alternating chapter format of the #1 New York Times bestselling *Younger Next Year* and other books in the series. And just as millions of readers positively changed their lives following Harry's Rules in *Younger Next Year*, the millions of back pain sufferers can find relief following Jeremy's rules, including *Stop Doing Dumb Stuff*, *Be Still So You Can Heal*, and *Stand Tall for the Long Haul*. He explains the workings of the spine and muscles, and then why back pain is almost never a disease, per se, but the result of behavior. He then shows how to change our behavior, find a neutral spine, and begin a regimen of simple exercises—with step-by-step two-color illustrations—to realign our core to virtually

eliminate back pain forever. Chris Crowley, in his been-there-done-that-and-you-can-too-damnit! voice, provides all the motivation and patient perspective we need.

The Year of Learning Dangerously Jun 07 2021  
Think homeschooling is only for a handful of eccentrics on either end of the political spectrum? Think again. Today in America, two million primary- and secondary-school students are homeschooled. Growing at a rate of 10 percent annually, homeschooling represents the most dramatic change in American education since the invention of the mimeograph—and the story has only just begun. In *The Year of Learning Dangerously*, popular blogger, author, and former child actor Quinn Cummings recounts her family's decision to wade into the unfamiliar waters of homeschooling—despite a chronic lack of discipline, some major gaps in academic knowledge, and a serious case of math aversion. (That description refers to Quinn.) Trying out the latest trends, attending key conferences (incognito, of course), and recounting the highlights and lowlights along the way, Quinn takes her daughter's education into her own

hands, for better and for worse. Part memoir, part social commentary, and part how-not-to guide, *The Year of Learning Dangerously* will make you laugh and make you think. And it may or may not have a quiz at the end. OK, there isn't a quiz. Probably.

The Grace Year May 26 2020 The Instant New York Times Bestseller! A speculative thriller in the vein of *The Handmaid's Tale* and *The Power*. Optioned by Universal and Elizabeth Banks to be a major motion picture! "A visceral, darkly haunting fever dream of a novel and an absolute page-turner. Liggett's deeply suspenseful book brilliantly explores the high cost of a misogynistic world that denies women power and does it with a heart-in-your-throat, action-driven story that's equal parts horror-laden fairy tale, survival story, romance, and resistance manifesto. I couldn't stop reading." – Libba Bray, New York Times bestselling author *Survive the Year*. No one speaks of the grace year. It's forbidden. In Garner County, girls are told they have the power to lure grown men from their beds, to drive women mad with jealousy. They believe their very skin emits a powerful aphrodisiac, the potent essence of youth, of a girl on the edge of womanhood. That's

why they're banished for their sixteenth year, to release their magic into the wild so they can return purified and ready for marriage. But not all of them will make it home alive. Sixteen-year-old Tierney James dreams of a better life—a society that doesn't pit friend against friend or woman against woman, but as her own grace year draws near, she quickly realizes that it's not just the brutal elements they must fear. It's not even the poachers in the woods, men who are waiting for a chance to grab one of the girls in order to make a fortune on the black market. Their greatest threat may very well be each other. With sharp prose and gritty realism, *The Grace Year* examines the complex and sometimes twisted relationships between girls, the women they eventually become, and the difficult decisions they make in-between.

[This Time Next Year We'll Be Laughing](#) Sep 10 2021 A 2021 Edgar Award Nominee for Best Critical/Biographical "Jacqueline Winspear has created a memoir of her English childhood that is every bit as engaging as her Maisie Dobbs novels, just as rich in character and detail, history and humanity. Her writing is lovely, elegant and welcoming." —Anne Lamott The New York Times bestselling author of the Maisie Dobbs series

offers a deeply personal memoir of her family's resilience in the face of war and privation. After sixteen novels, Jacqueline Winspear has taken the bold step of turning to memoir, revealing the hardships and joys of her family history. Both shockingly frank and deftly restrained, her story tackles the difficult, poignant, and fascinating family accounts of her paternal grandfather's shellshock; her mother's evacuation from London during the Blitz; her soft-spoken animal-loving father's torturous assignment to an explosives team during WWII; her parents' years living with Romany Gypsies; and Winspear's own childhood picking hops and fruit on farms in rural Kent, capturing her ties to the land and her dream of being a writer at its very inception. An eye-opening and heartfelt portrayal of a post-War England we rarely see, *This Time Next Year We'll Be Laughing* chronicles a childhood in the English countryside, of working class indomitability and family secrets, of artistic inspiration and the price of memory.

The Plague Year Nov 19 2019 From the Pulitzer Prize-winning author of *The Looming Tower*, and the pandemic novel *The End of October*: an unprecedented, momentous account of Covid-19—its origins, its wide-ranging repercussions, and the ongoing global fight to contain it "A book of panoramic breadth ... managing to surprise us about even those episodes we ... thought we knew well ... [With] lively exchanges about spike proteins and nonpharmaceutical interventions and disease waves, Wright's storytelling dexterity makes all this come alive." —The New York Times Book Review From the fateful first moments of the outbreak in China to the storming of the U.S. Capitol to the extraordinary vaccine rollout, Lawrence Wright's *The Plague Year* tells the story of Covid-19 in authoritative, galvanizing detail and with the full drama of events on both a global and intimate scale, illuminating the medical, economic, political, and social ramifications of the pandemic. Wright takes us inside the CDC, where

a first round of faulty test kits lost America precious time . . . inside the halls of the White House, where Deputy National Security Adviser Matthew Pottinger's early alarm about the virus was met with confounding and drastically costly skepticism . . . into a Covid ward in a Charlottesville hospital, with an idealistic young woman doctor from the town of Little Africa, South Carolina . . . into the precincts of prediction specialists at Goldman Sachs . . . into Broadway's darkened theaters and Austin's struggling music venues . . . inside the human body, diving deep into the science of how the virus and vaccines function—with an eye-opening detour into the history of vaccination and of the modern anti-vaccination movement. And in this full accounting, Wright makes clear that the medical professionals around the country who've risked their lives to fight the virus reveal and embody an America in all its vulnerability, courage, and potential. In turns steely-eyed, sympathetic, infuriated, unexpectedly comical, and always precise, Lawrence Wright is a formidable guide, slicing through the dense fog of misinformation to give us a 360-degree portrait of the catastrophe we thought we knew.

What the Eyes Don't See Dec 25 2022 A NEW YORK TIMES NOTABLE BOOK □ The dramatic story of the Flint water crisis, by a relentless physician who stood up to power. "Stirring . . . [a] blueprint for all those who believe . . . that 'the world . . . should be full of people raising their voices.'" —The New York Times "Revealing, with the gripping intrigue of a Grisham thriller." —O: The Oprah Magazine Here is the inspiring story of how Dr. Mona Hanna-Attisha, alongside a team of researchers, parents, friends, and community leaders, discovered that the children of Flint, Michigan, were being exposed to lead in their tap water—and then battled her own government and a brutal backlash to expose that truth to the world. Paced like a scientific thriller, What the Eyes Don't See reveals how misguided austerity policies, broken democracy, and callous

bureaucratic indifference placed an entire city at risk. And at the center of the story is Dr. Mona herself—an immigrant, doctor, scientist, and mother whose family's activist roots inspired her pursuit of justice. *What the Eyes Don't See* is a riveting account of a shameful disaster that became a tale of hope, the story of a city on the ropes that came together to fight for justice, self-determination, and the right to build a better world for their—and all of our—children. Praise for *What the Eyes Don't See* "It is one thing to point out a problem. It is another thing altogether to step up and work to fix it. Mona Hanna-Attisha is a true American hero."—Erin Brockovich "A clarion call to live a life of purpose."—The Washington Post "Gripping . . . entertaining . . . Her book has power precisely because she takes the events she recounts so personally. . . . Moral outrage present on every page."—The New York Times Book Review "Personal and emotional. . . She vividly describes the effects of lead poisoning on her young patients. . . . She is at her best when recounting the detective work she undertook after a tip-off about lead levels from a friend. . . .' Flint will not be defined by this crisis,' vows Ms. Hanna-Attisha."—The Economist "Flint is a public health disaster. But it was Dr. Mona,

this caring, tough pediatrician turned detective, who cracked the case." —Rachel Maddow
