WITH AN INTRODUCTION BY JARVIS COCKER In the summer of 1964, Tom Wolfe joined author Ken Kesey and his Merry Band of Pranksters as they set out on a trip like no other. Blazing across America in their day-glo schoolbus, doped up and deep 'in the pudding', the Pranksters' arrival on the scene - anarchic, exuberant and acid-infused - would turn on an entire counter-culture, and provide Wolfe with the perfect free-wheeling subject for this, his pioneering masterpiece of New Journalism. One Sunday morning, Gloria wakes up in a stranger's apartment with nothing but a torn evening dress, stockings, and panties. When she steals a fur coat from the wardrobe to wear home, she unleashes a series of events that can only end in tragedy. Inspired by true events, this novel caused a sensation on its publication for its frank depiction of the relationship between a wild and beautiful young woman and a respectable, married man From "America's nerviest journalist" (Newsweek)--a breath-taking epic, a magnificent adventure story, and an investigation into the true heroism and courage of the first Americans to conquer space. "Tom Wolfe at his very best" (The New York Times Book Review) Millions of words have poured forth about man's trip to the moon, but until now few people have had a sense of the most engrossing side of the adventure; namely, what went on in the minds of the astronauts themselves - in space, on the moon, and even during certain odysseys on earth. It is this, the inner life of the astronauts, that Tom Wolfe describes with his almost uncanny empathetic powers, that made *The Right Stuff* a classic. Good graphs make complex problems clear. From the weather forecast to the Dow Jones average, graphs are so ubiquitous today that it is hard to imagine a world without them. Yet they are a modern invention. This book is the first to comprehensively plot humankind's fascinating efforts to visualize data, from a key seventeenth-century precursor--England's plague-driven initiative to register vital statistics--right up to the latest advances. In a highly readable, richly illustrated story of invention and inventor that mixes science and politics, intrigue and scandal, revolution and shopping, Howard Wainer validates Thoreau's observation that circumstantial evidence can be quite convincing, as when you find a trout in the milk. The story really begins with the eighteenth-century origins of the art, logic, and methods of data display, which emerged, full-grown, in William Playfair's landmark 1786 trade atlas of England and Wales. The remarkable Scot singlehandedly popularized the atheoretical plotting of data to reveal suggestive patterns--an achievement that foretold the graphic explosion of the nineteenth century, with atlases published across the observational sciences as the language of science moved from words to pictures. Next come succinct chapters illustrating the uses and abuses of this marvelous invention more recently, from a murder trial in Connecticut to the Vietnam War's effect on college admissions. Finally Wainer examines the great twentieth-century polymath John Wilder Tukey's vision of future graphic displays and the resultant methods--methods poised to help us make sense of the torrent of data in our information-laden world. A big, panoramic story of the new America, as told by our master chronicler of the way we live now. As a police launch speeds across Miami's Biscayne Bay-with officer Nestor Camacho on board-Tom Wolfe is off and running. Into the feverous landscape of the city, he introduces the Cuban mayor, the black police chief, a wanna-go-muckraking young journalist and his Yale-marinated editor; an Anglo sex-addiction psychiatrist and his Latina nurse by day, loin lock by night-until lately, the love of Nestor's life; a refined, and oh-so-light-skinned young woman from Haiti and her Creole-spouting, black-gang-banger-stylin' little brother; a billionaire porn addict, crack dealers in the 'hoods, "de-skilled" conceptual artists at the Miami Art Basel Fair, "spectators" at the annual Biscayne Bay regatta looking only for that night's orgy, yenta-heavy ex-New Yorkers at an "Active Adult" condo, and a nest of shady Russians. Based on the same sort of detailed, on-scene, high-energy reporting that powered Tom Wolfe's previous bestselling novels, *BACK TO BLOOD* is another brilliant, spot-on, scrupulous, and often hilarious reckoning with our times. Wolfe focuses on the changing mores and social landscape of the 1980s, with drawings from two decades as a graphic artist. Reprint. "An excellent book by a genius," said Kurt Vonnegut, Jr., of this now classic exploration of the 1960s from the founder of new journalism. "This is a book that will be a sharp pleasure to reread years from now, when it will bring back, like a falcon in the sky of memory, a whole world that is currently jetting and jazzing its way somewhere or other."--Newsweek In his first book, *The Kandy-Kololed Tangerine-Flake Streamline Baby* (1965) Wolfe introduces us to the sixties, to extravagant new styles of life that had nothing to do with the "elite" culture of the past. At Dupont University, an innocent college freshman named Charlotte Simmons learns that her intellect alone will not help her survive. The Pulitzer Prize and National Book Award-winning author of *House* and the editor of *Atlantic Monthly* share stories from their literary friendship and respective careers, offering insight into writing principles and mechanics that they have identified as elementary to quality prose. From the bestselling author of *Fear and Loathing in Las Vegas*, the legendary Hunter S. Thompson's second volume of the "Gonzo Papers" is back. *Generation of Swine* collects hundreds of columns from the infamous journalist's 1980s tenure at the *San Francisco Examiner*. Here, against a backdrop of late-night tattoo sessions and soldier-of-fortune trade shows, Dr. Thompson is at his apocalyptic best--covering emblematic events such as the 1987-88 presidential campaign, with Vice President George Bush, Sr., fighting for his life against Republican competitors like Alexander Haig, Pat Buchanan, and Pat Robertson; detailing the GOP's obsession with drugs and drug abuse; while at the same time capturing momentous social phenomena as they occurred, like the rise of cable, satellite TV, and CNN--24 hours of mainline news. Showcasing his inimitable talent for social and political analysis, *Generation of Swine* is vintage Thompson--eerily prescient, incisive, and enduring. Big men. Big money. Big games. Big libidos. Big trouble. A decade ago, *The Bonfire of the Vanities* defined an era--and established Tom Wolfe as our prime fictional chronicler of America at its most outrageous and alive. This time the setting is Atlanta, Georgia--a racially mixed late-century boomtown full of fresh wealth, avid speculators, and worldly-wise politicians. The protagonist is Charles Croker, once a college football star, now a late-middle-aged Atlanta real-estate entrepreneur turned conglomerate king, whose expansionist ambitions and outsize ego have at last hit up against reality. Charlie has a 28,000-acre quail-shooting plantation, a young and demanding second wife--and a half-empty office tower with a staggering load of debt. When star running back Fareek Fanon--the pride of one of Atlanta's grimmest slums--is accused of raping an Atlanta blueblood's daughter, the city's delicate racial balance is shattered overnight. Networks of illegal Asian immigrants crisscrossing the continent, daily life behind bars, shady real-estate syndicates, cast-off first wives of the corporate elite, the racially charged politics of college sports--Wolfe shows us the disparate worlds of contemporary America with all the verve, wit, and insight that have made him our most phenomenal, most admired contemporary novelist. *A Man in Full* is a 1998 National Book Award Finalist for Fiction. Gathers interviews with Tom Wolfe from each period of his career and offers a brief profile of his life and accomplishments In this collection of short stories, Dovid Bergelson captures life in Berlin at the precarious moment between world wars - in particular the experiences of Berlin's Jewish community and the uneasy existence of intellectual exiles in an often hostile city. Bergelson, who left his native Ukraine after experiencing one of the many thousands of pogroms first-hand, settled in Berlin at a time of excitement for its Jewish artists and intellectuals, as Yiddish literature and art flourished, all-too-briefly, in the German metropolis. *The Shadows of Berlin* is, in part, a bleak chronicle of life in a Europe

growing ever more hostile at the edge of World War II. More than that, these stories offer glimpses into a community and a world now lost. They are also, in part, parables of modern life, drawing as much on the transformative possibility of scripture as they do on gritty depictions of the Berlin street. Bergelson's stories hint at the possibility of redemption even as they suggest a horror just around the corner. Creative nonfiction is the literary equivalent of jazz: it's a rich mix of flavors, ideas, voices, and techniques—some newly invented, and others as old as writing itself. This collection of 20 gripping, beautifully-written nonfiction narratives is as diverse as the genre Creative Nonfiction magazine has helped popularize. Contributions by Phillip Lopate, Brenda Miller, Carolyn Forché, Toi Derricotte, Lauren Slater and others draw inspiration from everything from healthcare to history, and from monarch butterflies to motherhood. Their stories shed light on how we live. This is a 1973 anthology of journalism edited by Tom Wolfe and E. W. Johnson. The book is both a manifesto for a new type of journalism by Wolfe, and a collection of examples of New Journalism by American writers, covering a variety of subjects from the frivolous (baton twirling competitions) to the deadly serious (the Vietnam War). The pieces are notable because they do not conform to the standard dispassionate and even-handed model of journalism. Rather they incorporate literary devices usually only found in fictional works. Two disaffected teens take a spontaneous summer road trip after dropping acid. But instead of escapism, the LSD exacerbates their ennui, fear, and doubts about the world. A funny and moving story of escalating humor and tension. Now revised and updated, this book tells the story of how the automobile transformed American life and how automotive design and technology have changed over time. It details cars' inception as a mechanical curiosity and later a plaything for the wealthy; racing and the promotion of the industry; Henry Ford and the advent of mass production; market competition during the 1920s; the development of roads and accompanying highway culture; the effects of the Great Depression and World War II; the automotive Golden Age of the 1950s; oil crises and the turbulent 1970s; the decline and then resurgence of the Big Three; and how American car culture has been represented in film, music and literature. Updated notes and a select bibliography serve as valuable resources to those interested in automotive history. The US and Europe have unraveled since World War II and radicalism has metastasized into every community, tearing away the decency, optimism, and security that shaped those robust democracies for more than eight decades. No place is immune, including the small West Texas town of Dell City, where four generations of an iconic American family and a Syrian Muslim family carve a farming empire out of the unforgiving high desert. These families' partnership is as unlikely as the idea of a United States, and their powerful friendship can be traced back to a bloody knife fight in a Juarez cantina just after World War II. The bond forged that night between Jack Laws, an Irish American who staked his claim in West Texas after the war, and Ali Zarkan, whose great-grandfather sailed from the Middle East to Texas in the mid-1800s as part of President Franklin Pierce's attempt to create the US Army Camel Corps, shapes each generation of the families as they come of age and adapt to shifting paradigms of gender, commerce, patriotism, loyalty, religion, and sexuality. From the beaches of the Western Pacific to the battlefields of the Middle East and from the lawless streets of Juarez to the darkest corners of the Internet, the two families fight real and perceived enemies—journeying, as they do, through the football fields of Texas and West Point, the hippie playgrounds of Asia, the music halls of Austin, the terrorist cells of Europe and the political backrooms where fortunes are gained or lost over the rights to Western water. Underlying their experiences is the basic question of what constitutes identity and citizenship in America, or in Texas, a land over which six flags have flown. The seventh flag, ultimately, is not one of a state or a nation, but of a mosaic of cultures, religions, and people from every corner of the world—all struggling to define what it means to be unified under an ambiguous banner. Originally published: New York: Farrar, Straus & Giroux, 1965. Vintage Tom Wolfe, *The Bonfire of the Vanities*, the #1 bestseller that will forever define late-twentieth-century New York style. "No one has portrayed New York Society this accurately and devastatingly since Edith Wharton" (*The National Review*) "A page-turner . . . Brilliant high comedy." (*The New Republic*) Sherman McCoy, the central figure of Tom Wolfe's first novel, is a young investment banker with a fourteen-room apartment in Manhattan. When he is involved in a freak accident in the Bronx, prosecutors, politicians, the press, the police, the clergy, and assorted hustlers high and low close in on him, licking their chops and giving us a gargantuan helping of the human comedy, of New York in the 1980s, a city boiling over with racial and ethnic hostilities and burning with the itch to Grab It Now. Wolfe's novel is a big, panoramic story of the metropolis that reinforces the author's reputation as the foremost chronicler of the way we live in America. Car culture - pinstriping, customising and cartooning - is nearly synonymous with Southern California culture. *Kustom Kulture* tells the story of the revved-up legends of the custom car cult of the 1950s, 60s and 70s in Los Angeles. Features art work by Robert Williams, Von Dutch and Ed |Big Daddy| Roth. Hot rod art at its best by three masters of the form. Collects all 58 of the distinguished American author's short stories in order of their first publication After critiquing—and infuriating—the art world with *The Painted Word*, award-winning author Tom Wolfe shared his less than favorable thoughts about modern architecture in *From Bauhaus to Our Haus*. In this examination of the strange saga of twentieth century architecture, Wolfe takes such European architects as Ludwig Mies van der Rohe, Le Corbusier, and Bauhaus art school founder Walter Gropius to task for their glass and steel box designed buildings that have influenced—and infected—America's cities. *The Baby Book* celebrates the joy of being pregnant and being a parent. The book presents interesting facts alongside practical advice on all aspects of being a modern parent - from pregnancy and birth through to baby and childcare for the first three years, plus a specific chapter on having baby number two. Forty years after Tom Wolfe, Hunter S. Thompson, and Gay Talese launched the New Journalism movement, Robert S. Boynton sits down with nineteen practitioners of what he calls the New New Journalism to discuss their methods, writings and careers. The New New Journalists are first and foremost brilliant reporters who immerse themselves completely in their subjects. Jon Krakauer accompanies a mountaineering expedition to Everest. Ted Conover works for nearly a year as a prison guard. Susan Orlean follows orchid fanciers to reveal an obsessive subculture few knew existed. Adrian Nicole LeBlanc spends nearly a decade reporting on a family in the South Bronx. And like their muckraking early twentieth-century precursors, they are drawn to the most pressing issues of the day: Alex Kotlowitz, Leon Dash, and William Finnegan to race and class; Ron Rosenbaum to the problem of evil; Michael Lewis to boom-and-bust economies; Richard Ben Cramer to the nitty gritty of politics. How do they do it? In these interviews, they reveal the techniques and inspirations behind their acclaimed works, from their felt-tip pens, tape recorders, long car rides, and assumed identities; to their intimate understanding of the way a truly great story unfolds. Interviews with: Gay Talese Jane Kramer Calvin Trillin Richard Ben Cramer Ted Conover Alex Kotlowitz Richard Preston William Langewiesche Eric Schlosser Leon Dash William Finnegan Jonathan Harr Jon Krakauer Adrian Nicole LeBlanc Michael Lewis Susan Orlean Ron Rosenbaum Lawrence Weschler Lawrence Wright "When are the 1970s going to begin?" ran the joke during the Presidential campaign of 1976. With his own patented combination of serious journalism and dazzling comedy, Tom Wolfe met the question head-on in these rollicking essays in *Mauve Gloves and Madmen, Clutter and Vine* -- and even provided the 1970s with its name: "The Me Decade." In 1952, John Cage shocked audiences with 4'33," his composition showcasing the power of silence. From Cage's minimalism to Chris Burden's radical performance art two decades later, the post-war avant-garde sought to liberate the art world by shattering the divide between high and low art. *Feast of Excess* presents an engaging and accessible portrait of the cultural extremism that emerged in the United States after World War II. This "New Sensibility," as termed by Susan Sontag, was predicated upon excess, pushing and often crossing boundaries whether in the direction of minimalism or maximalism. Through brief vignette profiles of prominent figures in literature, music, visual art, poetry, theater and journalism, George Cotkin leads readers on a focused journey through the interconnected stories of prominent figures such as Andy Warhol, Anne Sexton, John Cage, John Coltrane, Bob Dylan, Erica Jong, and Chris Burden, among many others, who broke barriers between artist and audience with their bold, shocking, and headline-grabbing performances. This inventive narrative captures the sentiment of liberation from high and low culture in artistic endeavors spanning from the 1950s to the 1970s and reveals the establishment of excess in American culture as the norm. A detailed emersion in the history of cultural extremism, *Feast of Excess* leaves readers to consider the provocative revelation that the essence of excess remains in our culture today, for good and ill. "America's nerviest journalist" (*Newsweek*) trains his satirical eye on Modern Art in this "masterpiece" (*The Washington Post*) Wolfe's style has never been more dazzling, his wit never more keen. He addresses the scope of Modern Art, from its founding days as Abstract Expressionism through its transformations to Pop, Op, Minimal, and Conceptual. *The Painted Word* is Tom Wolfe "at his most clever, amusing, and irreverent" (*San Francisco Chronicle*). Tom Wolfe's debut collection of essays - a brilliant, form-bending dive into the future of America as it careened through the 1960s In 1965, Tom Wolfe dropped like a bomb onto the American literary scene with his first book, *The Kandy-Kolored Tangerine-Flake Streamline Baby*, an incandescent panorama of American counter-culture, its dances,

bouffant hairdos, customised cars and rock concerts. Capturing the energy of the age in its portraits of Phil Spector, Cassius Clay, Las Vegas and the Nanny Mafia - as well as asking, why do doormen hate Volkswagens? - Wolfe's flamboyant essay collection remains one of the great, revolutionary landmarks of modern non-fiction. 'Journalism, it is said, is the first draft of history. Nobody exemplifies the dictum better than Wolfe, the cultural observer and social critic par excellence' Daily Telegraph Only yesterday boys and girls spoke of embracing and kissing (necking) as getting to first base. Second base was deep kissing, plus groping and fondling this and that. Third base was oral sex. Home plate was going all the way. That was yesterday. Here in the Year 2000 we can forget about necking. Today's girls and boys have never heard of anything that dainty. Today first base is deep kissing, now known as tonsil hockey, plus groping and fondling this and that. Second base is oral sex. Third base is going all the way. Home plate is being introduced by name. And how rarely our hooked-up boys and girls are introduced by name!-as Tom Wolfe has discovered from a survey of girls' File-o-Fax diaries, to cite but one of Hooking Up's displays of his famed reporting prowess. Wolfe ranges from coast to coast chronicling everything from the sexual manners and mores of teenagers... to fundamental changes in the way human beings now regard themselves thanks to the hot new field of genetics and neuroscience. . . to the inner workings of television's magazine-show sting operations. Printed here in its entirety is "Ambush at Fort Bragg," a novella about sting TV in which Wolfe prefigured with eerie accuracy three cases of scandal and betrayal that would soon explode in the press. A second piece of fiction, "U. R. Here," the story of a New York artist who triumphs precisely because of his total lack of talent, gives us a case history preparing us for Wolfe's forecast ("My Three Stooges," "The Invisible Artist") of radical changes about to sweep the arts in America. As an espresso after so much full-bodied twenty-first-century fare, we get a trip to Memory Mall. Reprinted here for the first time are Wolfe's two articles about The New Yorker magazine and its editor, William Shawn, which ignited one of the great firestorms of twentieth-century journalism. Wolfe's afterword about it all is in itself a delicious draught of an intoxicating era, the Twistin' Sixties. In sum, here is Tom Wolfe at the height of his powers as reporter, novelist, sociologist, memoirist, and-to paraphrase what Balzac called himself-the very secretary of American society in the 21st century. An anthology of top-selected Rolling Stone articles offers insight into both the late Thompson's early career and the magazine's fledgling years, in a volume that includes the stories of his infamous Freak Party sheriff campaign and his observations about the Bush-versus-Kerry presidential rivalry. By the best-selling author of The Rum Diary. 100,000 first printing. An "excruciatingly funny" novel by the author of the classic The Ginger Man (Newsweek). From "a comic writer rivaling Waugh and Wodehouse" (Life), this is the story of George Smith. Mysteriously rich and desperately lonely, George appears to be under attack from all quarters. His former wife and four horrible children are suing to get his money. His dipsomaniacal housekeeper is trying to arouse his carnal interest. His secretary, the beautiful, blond Miss Thomson, will barely give him the time of day. Making matters even worse are the threatening letters: Dear Sir: Only for the moment are we saying nothing. Yours, etc., Present Associates. Despite such precautions as a two-inch-thick surgical steel door and a bulletproof limousine, Smith remains worried. So he undertakes to build a giant mausoleum, complete with plumbing, in which to live . . . Hunter S. Thompson called reading this book "like sitting down to an evening of good whisky and mad laughter in a rare conversation somewhere on the edge of reality." A Singular Man is a deliciously dark comic novel by the recipient of a Lifetime Achievement honor from the Irish Book Awards. "A wild romp . . . An important, first-rate novel by a gifted artist." —Chicago Tribune "Rollicking, rambunctious . . . Sheer pleasure to read . . . Shatteringly funny." —The New York Times Book Review Radical Chic and Mau-Mauing the Flak Catchers is classic Tom Wolfe, a funny, irreverent, and "delicious" (The Wall Street Journal) dissection of class and status by the master of New Journalism The phrase 'radical chic' was coined by Tom Wolfe in 1970 when Leonard Bernstein gave a party for the Black Panthers at his duplex apartment on Park Avenue. That incongruous scene is re-created here in high fidelity as is another meeting ground between militant minorities and the liberal white establishment. Radical Chic provocatively explores the relationship between Black rage and White guilt. Mau-Mauing the Flak Catchers, set in San Francisco at the Office of Economic Opportunity, details the corruption and dysfunction of the anti-poverty programs run at that time. Wolfe uncovers how much of the program's money failed to reach its intended recipients. Instead, hustlers gamed the system, causing the OEO efforts to fail the impoverished communities. Lamenting the stress-inducing pressure that modern society places on young women to be sexually active, the author calls for a renewed respect for women's privacy and their desire to take intimacy seriously. The maestro storyteller and reporter provocatively argues that what we think we know about speech and human evolution is wrong. "A whooping, joy-filled and hyperbolic raid on, of all things, the theory of evolution." (Dwight Garner, New York Times) Tom Wolfe, whose legend began in journalism, takes us on an eye-opening journey that is sure to arouse widespread debate. THE KINGDOM OF SPEECH is a captivating, paradigm-shifting argument that speech--not evolution--is responsible for humanity's complex societies and achievements. From Alfred Russel Wallace, the Englishman who beat Darwin to the theory of natural selection but later renounced it, and through the controversial work of modern-day anthropologist Daniel Everett, who defies the current wisdom that language is hard-wired in humans, Wolfe examines the solemn, long-faced, laugh-out-loud zig-zags of Darwinism, old and Neo, and finds it irrelevant here in the Kingdom of Speech.
